

**FLEXIBLE AND CHANGEABLE
EXCEPTIONAL EFFICIENCY**

CAEL-8T

**New generation
earth moving excavator**

**PRODUCT
PARAMETERS**

Model		CAEL-8T	
Working weight	8202kg	Unloading height	5257mm
Bucket capacity	0.27-0.33m ³	Vertical excavation depth	2662mm
Boom stick	3722-1672	Track length	2752mm
Maximum excavation depth	4172mm	Track width	2300mm
Maximum excavation height	7272mm	Track shoe width	452mm
Engine model	Yangma 4tnv98L		
Power	45/2100 kw/rpm		
Control valve	Doosan/Parker/kyb		
Swing motor	Doosan		
Travel motor	Doosan		
Main pump	Doosan/Kawasaki

**CORE
CONFIGURATION**

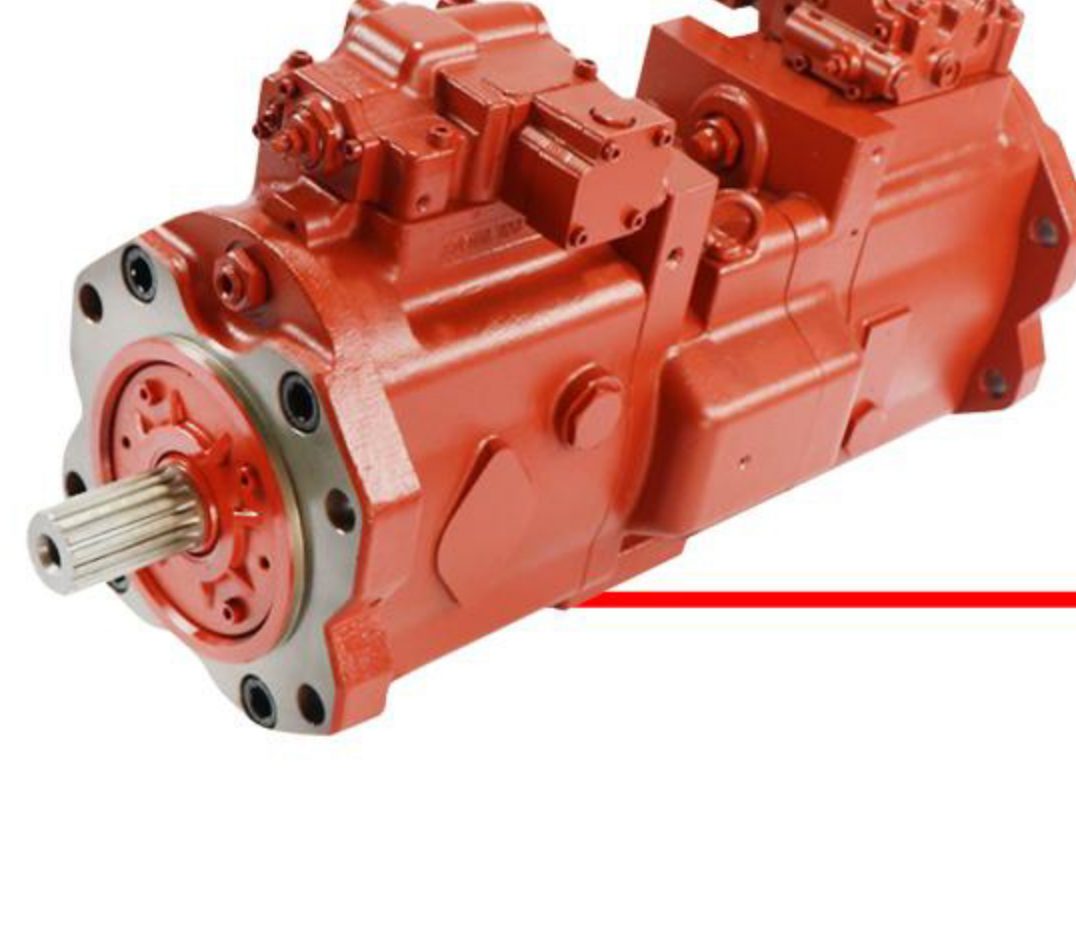

◎ Yangma 4tnv98L engine

Widely used and powerful;
Durable, fuel saving, cheap accessories, convenient maintenance, the first choice for excavators!

◎ Doosan Control valve

Customized, with "high reliability, low pressure loss, high flow distribution efficiency, The compound action is smooth" and other outstanding advantages to meet the professional needs of customers.

◎ Doosan Main pump

Multiple oil filtering systems such as hydraulic oil pump enhance the fuel filtering performance and greatly improve the fuel utilization rate. The layout structure is more compact and the maintenance is more convenient.

**PRODUCT SELLING
POINTS**

New upgrade of cockpit

New cab, luxury and mechanical feeling coexist;
The new armrest box is more simple, with multi-function panel and complete operation function keys, which can meet customers' different operation habits.
